

Call for Special Sessions & Workshops

The CITISIA 2023 invites proposals for Workshops & Special Sessions to be held during the conference.

The intention is to provide researchers the opportunity to present and discuss their work in focused areas, as well as to offer a forum for interaction among a broader community of researchers. A Special Session or Workshop will consist of a group of papers in a sub-discipline of theoretical developments and practical applications related to the main topics of CITISIA 2023.

Please send the Workshops & Special Session proposals to Associate Prof. SM Namal Arosha Senanayake (aroshas@ieee.org) and Associate Prof. Chandana Withana (cwithana@csu.edu.au) with the following information:

- Title & acronym of the special session & workshop
- Brief profiles of special session & workshop organizers
- General description of the special session & workshop scope
- List of topics
- Proposed Session Program Committee (to be invited)

The papers will be required to meet the same standards as CITISIA 2023 papers and will be published in the conference proceedings. All the Special Sessions and Doctoral Track will be centralized as tracks in the same conference submission and reviewing system as the regular papers.

The organizers will be responsible for the advertisement and promotion of the special sessions/workshops and the conference including Special Sessions & Workshops webpage preparation.

The management of papers review will be achieved by Special Session & Workshop Committees, using the Conference System. The organizers are responsible for managing the review process. All the reviews should be submitted through the CITISIA 2023 conference system. Each paper should obtain at least two reviews.

The final decision as for the acceptance will be taken by the CITISIA 2023 Program Committee based on recommendations provided by Special Session & Workshop organizers.
